

# **M+M OBSERVATION**

**1st Grade:**

**S- Observation skills, adding variable**

**T- Applying to future topics of computer coding**

**E- How the water washes away the color and how if undisturbed will combine together**

**A- Using transferring skills to see then draw using the correct colors and blending of colors**

**M- Timing of process, proportions of the cup and the design the colors form**

- 1. Take the 3 primary color M+M's and place in the bottom of the cup to form a triangle in the bottom.**
- 2. Draw the three M+M's in the first circle on your paper**
- 3. Add water to the cup, enough to cover the M+M's, rearrange the M+M's if they moved.**
- 4. Let sit, DO NOT DISTURB**
- 5. Observe for a few minutes**
- 6. Draw and color the end result of the M+M's**
